Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 6-13, and 19-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6, lines 31-32, "said pair of through bores in said base of said bracket" lacks antecedent basis within the claim. Applicant should establish "wherein said base of said bracket has a pair of through bores", (see lines 2-3 of claim 3).

Claim 19, lines 6-7, "said pair of through bores in said base of said bracket" lacks antecedent basis within the claim. Applicant should establish "wherein said base of said bracket has a pair of through bores", (see lines 2-3 of claim 3). Further, it is not clear as to what is being defined by "wherein said anchor bolts ultimately receive a pair of nuts" as is recited in lines 11-12. Do the anchor bolts have nuts positioned on them or not?

Claim 20, lines 6-7, "said pair of through bores in said base of said bracket" lacks antecedent basis within the claim. Applicant should establish "wherein said base of said bracket has a pair of through bores", (see lines 2-3 of claim 3). Further, it is not clear as to what is being defined by "an anchor bolt...that ultimately receives a nut" as is recited in lines 10-11. Does the anchor bolt have a nut positioned on it or not? Line 12, "said studs" lacks antecedent basis within the claim.

For sake of prosecution Examiner has interpreted the language of "wherein said anchor bolts ultimately receive a pair of nuts" and "an anchor bolt...that ultimately

Art Unit: 3673

receives a nut” as defining the anchor bolts with nuts thereon. However, Applicant should use appropriate language serving to clearly set forth that --said anchor bolts have a pair of nuts received thereon, respectively-- or that the anchor bolt --has a nut received thereon--.

Claims 3, 6-13, and 19-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 15, 16, and 18 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
